# EMPOWERING

## BUSINESS COMMUNITIES

California's Small Business Development Center (SBDC) Network is one of the state's primary resource partners for small business assistance. Our 43 service centers and administrative lead centers play a leading role in driving the state economy by providing small businesses and entrepreneurs with confidential, no-cost, one-on-one advising and expert training. Our network is equipped to help business owners access capital, develop business and financial models, create and implement marketing strategies, connect to global markets, and grow their business online, among many other services.

The CA SBDC Network is funded primarily by the U.S. Small Business Administration with a 1:1 match requirement and a strong focus on collaboration. **California's SBDCs get the job done as the state's largest and most effective small business assistance program.**
